

Maintenance Supervisor – Remote Site

Lucas Earthmovers is seeking to employ a suitably qualified Maintenance Supervisor for remote sites. Lucas Earthmovers operates in the civil construction, quarrying, and crushing, mining and waste management sectors and currently employs approximately 200 employees. The principal role is to supervise several tradespersons and provide support for civil operations in a remote site operating from a field workshop.

Applicants must be qualified diesel or fixed plant fitters and must be experienced in maintenance and repairs of a range of earthmoving and miscellaneous equipment including brands such as Caterpillar, Hitachi, Komatsu and Nordberg.. Some experience in field operations would also be an advantage. Applicants will also need to be computer literate and be familiar with Microsoft Outlook, Excel, Word and online parts ordering systems.

The main functions include:

- Management and monitoring of maintenance crew including rosters, allocation of work, setting priorities, developing service schedules and provision of integrated technical support for field civil/mining operations,
- Ensuring compliance with health, safety, environment and community Company policies and procedures,
- Parts ordering, receiving and dispatching including invoicing and stock control,
- Maintaining a close working and reporting relationship with Lucas Project Manager, Maintenance Manager and Workshop Manager to ensure integrated maintenance support is provided on a timely basis to support civil operations.
- Applying hands on maintenance skills when required

Initial enquiries can be made to Ken Shinkfield tel. 0881794000 during normal business hours Mon. – Fri. All applications must be in writing and will be treated with the strictest confidence. To apply, please use our Employment Enquiries Form or send your resume to:
